

Kent Rubber

Brief:

Provide a new warehouse with wholesale sales and additional leasable space that the Company can grow into.

Strategy:

The building was placed on the corner lot so that Kent Rubber would have maximum visibility from the main road. An E.I.F.S. system was used on the street front incorporating the company's name. The E.I.F.S. system was continued to the lease space entry, which unified the design.

Project Information:

Building Size:	12,000 SF
Site Size:	1 acre
Completion Date:	1991
Project Cost:	N/A
Reference:	David Snyder, Owner of Kent Rubber
