

Southside Nazarene Church, Richmond, VA

Our team has worked with this ministry for more than 10 years. The first project was a **relocation** that involved a 68,000 SF new facility on 42 acres. A preliminary study was conducted and a master plan was completed. The building was constructed (our team also acted as a construction manager) on a flexible schedule as the church's finances allowed and was occupied in 1998.

Recently, W. L. Perry has assisted the church in feasibility studies and obtaining an adjoining 250 acres. The WLP Team developed a **campus master plan** for the **300 acre site** and is also developing plans for the second phase of a \$15 MM core ministry building development with a focus on children and youth. Southside has a **full-time Pre-School and Grades 1-8** (Guardian Christian Academy) with an **enrollment** of approximately **350**.
